Solid Surface washtroughs

For luxury, strength and a smooth, seamless finish, our Solid Surface washtroughs win hands down.

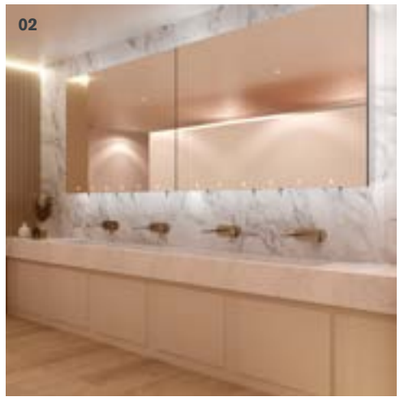

Washtroughs

Thermoformed washtroughs.

The carefully composed blend of acrylic minerals and integral moulded reinforcements creates a low maintenance, non-porous material with impact and thermal shock resistance. With fewer joins, our sleek thermoformed Solid Surface washtroughs are fantastic in hygiene critical areas, such as schools, as they're easier to keep clean and maintain. For added design flexibility, each Solid Surface thermoformed washtrough is custom-made for your project with a maximum single trough length of 3000mm.

01 WT3 profile Solid Surface thermoformed flat bottomed washtrough in Garnet with Aquarius A45 deck mounted sensor taps and 1300mm Mirror Box Units with liquid soap dispensers and automatic hand dryers.

02 WT2 profile Solid Surface thermoformed sloped washtrough in Roman Marble and Suede HPL underpanels with Hartley wall mounted mixer taps in brushed nickel. Infinite HPL cubicles in Porcelain with 1300mm Mirror Box Units with liquid soap dispensers, hand sanitiser dispensers and automatic hand dryers.

See p10-11 for Solid Surface washtrough technical specifications.

Key features

- Specify thermoformed washtroughs for improved hygiene
- Fewer joints provide greater strength and remove joint lines, making them easier to clean and maintain
- Choose from flat bottomed or sloped washtrough profiles
- Space saving slimline options available
- Choose from deck or wall mounted taps
- Luxurious stone-like appearance available in 22 finishes
- Option of pre-fabricated bin chutes
- A choice of underframe or brackets
- Bespoke length washtroughs to suit your brief
- Specify complementary Solid Surface splashbacks

Concealed waste washtroughs.

Our concealed waste washtroughs possess all the same features and benefits as our other Solid Surface washtrough and vanity solutions. They offer a modern vanity design which allows water to flow directly towards the hidden drain, making it an extremely hygienic solution. What's more, the sloped design helps the troughs dry quicker after use, reducing visible water marks. You have maximum design flexibility at specification stage, with a choice of 22 finishes, deck or wall mounted taps and brackets or underframes to complete your washtrough vanity unit design.

01 WT6 profile Solid Surface concealed waste washtrough in Limestone with pre-fabricated bin chute.

02 WT6 profile Solid Surface concealed waste washtrough in Limestone with Deva wall mounted sensor taps and 700mm Mirror Box Units with liquid soap and paper hand towel dispensers.

Infinite cubicles in American Black Walnut Straight Grain veneer and 700mm Mirror Box Units with liquid soap and paper hand towel dispensers.

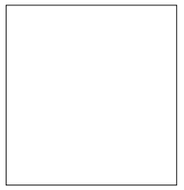

See p10-11 for Solid Surface washtrough technical specifications.

Key features

- Sleek, solid material ensures durability and consistency
- Water flows directly into hidden drains
- Sloped design means washtroughs dry quicker after use, reducing water marks
- A choice of 22 finishes
- Premium stone-like appearance
- A choice of underframe or brackets
- Minimal joins make it a hygienic vanity option
- Up to 3000m single washtrough length
- Choose from deck or wall mounted taps
- Option of pre-fabricated bin chutes
- Specify complementary Solid Surface splashbacks

Timeless finishes.

A proven blend of minerals and acrylic polymer delivering a stone appearance that ensures colour consistency and durability, while adding a touch of luxury to any commercial washroom. Make an impact with an energetic and vibrant colour like Citrine, or opt for a more muted colour like Pumice to create a clean, minimal look.
